

History and Physical Note

Patient: Ethan Chen
DOB: 04/09/2002
Gender: Male
Phone: +1-555-0102
Address: 789 Pine Rd, Lakeshore
Visit Date: 03/25/2026

Subjective Notes:

Ethan reports twisting his right ankle while landing during a basketball game yesterday. Immediate swelling and difficulty bearing weight. Pain is 7/10.

Objective Notes:

Vitals: BP 120/80, Pulse 85, Temp 98.2°F. Significant edema and ecchymosis over the lateral malleolus. Tenderness over the anterior talofibular ligament.

Assessment Notes:

Diagnosis: Grade II Sprain of Right Ankle (S93.411A)

Plan Notes:

RICE (Rest, Ice, Compression, Elevation) protocol. Use crutches as needed. Ibuprofen 400mg every 6 hours for pain. Referral to physical therapy if no improvement in 1 week.
